22 July 1953

I have received a letter from General Donovan introducing you and also have received your letter of July 16. Even without the General's letter, I would have been only too glad to see you, as I know something very generally about your Movement and its anti-communist plans.

My delay in answering you, however, is due to the fact that I have been trying to arrange to have you see persons far better qualified than I to discuss those plans and your efforts in connection therewith. I believe I have succeeded and that in the near future you will be approached for discussion of these matters with some people who understand them thoroughly.

Do not hesitate, of course, to get in touch with me again in the event you do not hear in this regard within what you consider a reasonable time.

Very truly yours,

Lawrence R. Houston
